Tyson Foods Warm Sandwich Handling Instructions

Use these guidelines when preparing warm sandwiches. Consistently following these points should ensure a safe experience when handling the product.

Warmer and surrounding areas should be kept clean at all times.

1

All fully cooked sandwiches are delivered frozen. Thaw product completely for 18-24 hours under refrigeration of 37°F-39°F. Clearly mark the master case with the date the product is placed in the cooler and "Use By" date based off of stated refrigerated shelf life.

2

Thawed sandwiches can be held under refrigeration based off of the refrigerated "Sell By" date of the specific product. Keep product in refrigeration until ready to heat.

3

Preheat warmer to 165°F before filling with sandwiches.

4

Heat sandwiches according to heating instructions as indicated on the back label. Keep product in original packaging. Do not unwrap.

5

Sandwiches must be heated to an internal temperature of 165°F. Verify using a probe thermometer by inserting under the back label.

6

Mark the time to discard the heated product on the back label of the sandwich.* "Sell By" time is 4 hours from the time of product heating.

7

Place wrapped, heated sandwich in the warmer.

8

As sandwiches are sold, move the older product from the back of the warmer to the front. Check to make sure the product is maintaining an internal temperature of 140°F. Discard any sandwiches if they have been in the warmer for more than 4 hours.*

Always use disposable, food-safe gloves when handling the food.

Tyson Foods Cold Sandwich Handling Instructions

Use these guidelines when preparing cold sandwiches. Consistently following these points should ensure a safe experience when handling the product.

All sandwiches are delivered frozen. Always use disposable, food-safe gloves when handling food.

Coolers, refrigerators and other food storage equipment in addition to surrounding areas should always be kept clean.

1

Refrigerate product at 37°F-39°F for 18-24 hours or until completely thawed.

Note: Do not thaw at room temperature.

2

Mark each sandwich clearly with both the date the product is placed in the cooler and a specific “Use By” date based off of the stated refrigerated shelf life.

3

Keep product refrigerated before serving.

Ready to Go

with the brands you know.

Offer every kind of sandwich for any time of day. Easy prep and a variety of flavors give customers quick, delicious options with brands they love. Individually wrapped sandwiches deliver added convenience for consumers on-the-go. Whether sold out of a cooler, warmer, or heated on demand, we offer the packaging formats and shelf life options you need to drive your business.

STAND OUT WITH MERCHANDISING TO SUPPORT IN-STORE SALES.

Build your food destination with a variety of equipment options perfect for any space.
